

## **Solid State Investments Inc.**

---

Dear Sir/Madam,

Please allow us to introduce our company, Solid State Investments Inc. We are a company providing tailor made business and financial consulting services worldwide. We have recently made a portfolio transition in our corporate funding activities and deal structuring to include capital markets support and private equity funding for environmental technologies.

We have entered this new sector because we see huge opportunity in what is now referred to as the "clean technology" or "cleantech" sector. There are a number of opportunities for advanced energy applications, resource recovery solutions and energy from waste technologies which will play a critically role in developing a more sustainable society.

Beyond the applications of more efficient and environmentally sensitive technologies there is also an abundance of pressing environmental problems, energy distribution issues and waste problems that present a global opportunity. This combined with a rapidly growing population base and a shortage of clean energy has led to our transition.

Our firm has an extremely large and successful investor base that traditionally supported resource exploration investments however with the rising costs of energy this investor platform has now transitioned along with us and fully supports our activities in the development of cleantech infrastructure projects.

We are currently working with several Governments and Financial Institutions with allocated funds commissioned for financing and supporting the development of the new clean energy economy. We are actively looking for advanced deal flow opportunities that we can apply these funds too. If your company has technology or a project in need of funding that meets our criteria and is interested in working with us we would like to hear from you. Please provide your executive summary, power point and brochure about your investment opportunity.

We would be happy to meet with you to exchange further details on our mandate and how we can apply our finance solutions to a number of new projects. You are welcome to obtain more information about our company by visiting our website at [www.solidstateinvestments.com](http://www.solidstateinvestments.com), or by the email address listed below.

We look forward to hearing from you soon.

Sincerely,

Solid State Investments Inc.
